Specialist Dementia Care

Opened in 2016, our dedicated dementia care building, Shannon House, provides comfortable and safe accommodation for 32 residents.

Our focus is on enhancing the lives of our residents living with dementia. All elements of Shannon House – from our model of care to the building design and layout – are designed to provide comfort and security, and encourage cognitive function and independence.

Residents have exclusive access to specialist activity programs, welcoming communal lounges and dining rooms, as well as peaceful gardens.

Community Living

Our community living services, which are available throughout Brisbane, provide valuable assistance within your own home to help you maintain your lifestyle and independence.

Whether it's lending a hand with day-to-day chores, organising visits to or from health professionals, or simply sharing a cup of tea and chat, we are here for you.

Independent Living

Our independent living apartments offer a maintenance-free, comfortable retirement lifestyle within a welcoming community (formerly known as Oxford Park Retirement Community).

You will enjoy fully self-contained, one-, two- or three-bedroom, private accommodation, with the comfort and security of on-site services. All of our residences are refurbished with modern finishes, air-conditioning and 24-hour emergency call buttons.

Independent living residents can take advantage of our community living services, and, if the time comes when you need additional care, you will be given priority access to our co-located residential living accommodation (subject to availability and care requirements).
